

Tuesday 11th May

Executive Board statement on Bullying.

Executive Board have zero tolerance for bullying. All bullying claims and reports are taken seriously. We do not accept the claim that "bullying claims/reports have been swept under the carpet". There is no evidence that a bullying culture exists on the Executive Board.

The Executive Board notes that to date the Board, Chief Executive and lawyer have not received any information or specific examples from Sonia in regard to her claims of bullying despite multiple opportunities to do so.

There is no evidence to support any of the bullying claims made by Sonia. However, if Sonia wishes to make a claim of bullying, then the Board would welcome the opportunity to organise an independent investigation to be undertaken into those claims.

Thank you,

The Executive Board
